

TenderTrode Plus™

Vermed's TenderTrode Plus™ line of hydrocolloid products is designed for the unique needs of the neonatal market. Each product uses hydrocolloid instead of aggressive tape adhesives to prevent irritation to tender skin while providing long-term attachment. This, coupled with the use of soft conforming materials, ensures patient comfort and product effectiveness in the NICU.

Patent # 6,795,722

Neonatal Leads

5-Day Wear Time, GUARANTEED!

- Long-term high humidity ECG electrode
- Hydrocolloid border provides long term attachment
- Save nursing time and resources with fewer electrode changes
- Hydrogel center provides excellent tracings
- Safe on neonatal skin
- Designed specifically for NICU
- Radiolucent lead

Reorder Information

A10055-SRT	1" Diameter Prewired, Cloth RT	3 per pouch	60 per case
